

SW MG200T Turbine Micro Grinder

3mm - 100.000 1/min - roll-release

swepro SW MG200T - The oil-free turbine grinder, is particularly suitable for fine machining, milling and deburring in tool, mould and model making due to its very high speeds. A very fine grinding pattern is achieved. The low weight, the compact and ergonomic housing design as well as the low vibration allow permanent use, even in areas that are difficult to access. In contrast to normal vane grinders, no oiling is required. Regular changing of the blades is not necessary with the turbine drive - the grinder is almost maintenance-free.

Technical data

Item number	783120
Weight	0,300 kg
Air consumption	0,086 m ³ /min
Air connection	IG 1/4" BSPT
Sound	82 dB(A)
Dimensions LxWxH	L = 190 mm
Max. Operating pressure	6,3 bar
Free speed	100.000 1/min
