

SW BHD18V125T Brushless Hammer Drill

125Nm - without battery and accessories

swepro SW BHD18V125T - The new heavy-duty battery impact drill (18V) convinces with a high torque (max. 125Nm) at low weight and compact design. The long-life brushless motor is powered by a powerful SAMSUNG Li-ion battery. Due to its energy-efficient motor control, a very long service life is possible. By means of the LCD display, the concrete speed can be monitored and adjusted step by step with the buttons. The high-quality and robust metal keyless drill chuck is driven by a 2-speed gearbox that is engaged via a switch. A bright LED ensures good illumination of the working area.

Included in delivery: Battery-powered impact drill and operating instructions.

Technical data

Item number	680321
Weight	1.66 kg
Sound	≤80 - 92 dB(A)
Dimensions LxWxH	L = 185 mm
Free speed	250-2000 1/min
Max. torque	125 Nm
Vibration	□2.5 - 15,2 m/s ²
Operating voltage	18 V
