SW BIW18V800S 18V Brushless Impact Wrench - 800Nm - incl.2x5Ah Li-Ion battery, charger & toolbox

swepro SW BIW18V800S - The 18V high-performance cordless impact wrench convinces with its very high torque of 800Nm. Within 5 seconds the tool already reaches a working torque of 650Nm. The durable brushless motor is driven by a powerful SAMSUNG Li-Ion battery. Due to its energy-efficient motor control, a very long service life is possible. The battery status can be easily read during use. The cordless impact wrench has four levels which can be simply adjusted via the control panel. A bright LED ensures good illumination of the working area. The powerful tool is ideal for tightening or loosening demanding screw connections. Included in delivery: Battery impact wrench in a handy case, two 5Ah batteries, charger, tool holder and operating instructions.
