

**Product test possible!**

**Replaces open tube** Ø 10 mm

**Noise reduction** 71 %

**Air-/ cost savings** 47 %

## Silvent 2005

### Wide nozzle

SILVENT 2005: an aluminum nozzle with aerodynamic slots. Produces a strong, quiet and effective air stream. The blowing force is approx. 5 times that of SILVENTs 209 and 511 nozzles. Despite its powerful force, both the sound level and energy consumption are low in comparison with 10 mm (3/8") open pipe blowing. Fully complies with EU Machine Directive noise limitations and OSHA safety regulations. Patented.

### Technical data

Item number	713116
Weight	0,012 kg
Air consumption	98 Nm <sup>3</sup> /h
Air connection	3/8 "
Sound	93,5 dB(A)
Blowing Power	14.5 N
Dimensions LxWxH	Ø 19 x 46 mm
Max. Operating pressure	1.0 MPa
Max temperature	150 °C
Material	Aluminium
Air pattern	Wide
