Silvent FV14

Flow valve

Flow valves that enable you to fine-tune the blowing force and thereby lower the noise level and conserve compressed air. The flow can be regulated from 5% to 100% of full flow. Available in 2 sizes. Seals of Nitrile. Material: stainless steel.

Technical data

Item number	768515
Weight	0,060 kg
Air connection	1/4 "
Dimensions LxWxH	17x40 mm
Max temperature	400 °C
Material	Stainless Steel
