SW 3392M micro angle grinder

120° / 21000 1/min

swepro SW 3392M - The small and compact 120° angle die grinder is ideal for filigrane and precise grinding and deburring suitable, even in hard to reach areas. The grinder can be operated with either a 3mm collet or a 6mm threaded receptacle. It comes with a respective grinding disc (Ø30mm) and a grindstone (Ø30mm) with 6mm threaded receptacle. The SW 3391M is started by a practical roll release and is ideally suited for permanent applications. The isolation of the handle allows a good and safe handling of the grinder. SW 3392M has so no turbulence of dust or chips in the application field, caused by the rear exhaust and exhaust hose..
