SW 314F Air drill

13 mm key chuck / Robust metal housing

swepro SW 314F - This powerful and durable air drill with a 13mm keyless chuck has a rugged metal housing. Therefore, the air drill is appropriate for many applications in the industry. Next to the handle and the trigger is the useful direction-switch. One-hand-operation is possible. An additional handle is included and supports safe and simple operations of the drilling machine.
