SW 2203 - Balancer

- max 1,6m (0,6-1,5kg)

A swepro Balancer is distinguished by their longevity and precision. The Balancer features a reliable relief for assembly operations and enables effective workflows. The Balancer is positioned straight over the work area with a solid suspension. On the backside is a rotatable adjustment of the spring tension, to adjust the resistance on the weight of the towed implement. SW 2203 is suitable for a weight of 0.6 to 1.5kg and has a maximum cable travel length of 1.6m.
