SW OSN30H Non-vacuum sander

3" / Ø 75 mm

swepro SW OSN30H - This all-purpose and low-noise 3" random orbital sander with its light weight composite enclosure and velcro sanding disc is very convenient to use. Its non-slip and vibration damping handle and ergonomic design guarantees quick and controlled working, yielding a high surface quality. Ideally used in preparation for painting, for repair work or in industrial manufacture.
